understanding developmental processes in the individual as well as in aggregates of individuals is an important aim of many of the social and behavioral sciences this book presents a theoretical framework for this endeavor an architecture for the study of human development across different disciplines this architecture describes two major sources of human development biology and culture and posits three central developmental mechanisms selection optimization and compensation

individual development and social change explanatory analysis represents a convergence of three lines of emphasis now visible in developmental research and theory building the three are 1 the life course as a focus for the study of development and social change and their interrelationships 2 the life span orientation to the study of individual development with its acknowledgment of the salience of contextual features for understanding development and 3 the growth of methodological innovations that provide more appropriate and powerful ways of exploiting data gathered to describe and explain developmental change processes the book opens with a study on how major cultural change originates and unfolds over time this is followed by separate chapters on the use of sequential designs for explanatory analyses evolutionary aspects of social and individual development the concepts of the theory of causal and weak causal regressive dependence and the concepts of age period and cohort from the perspective of

developmental psychology subsequent chapters examine development and aging as lifelong processes of historical populations the methodological integration of natural and cultural science perspectives in developmental psychology and application of the multifaceted methodology to the mutuality of constraint between sociocultural group and individual dynamics

the book expounds on the functioning of rural development as well as the practical problems encountered in the formulation of rural development policies and programmes it provides an exhaustive account of the various sectors and actors of rural development and presents it as a multidimensional concept by documenting its different components it also details the paradigms and strategies of rural development adopted by developed and developing countries of the world this volume deals with rural cooperatives and livelihood in order to understand how the development process can be self sustained and sustainable following the vocal for local mantra it also extensively discusses rural basic needs poverty employment the role of panchayati raj institutions the corporate sector ngos peoples participation and capacity building in rural development this book will be useful to undergraduate and postgraduate students researchers and teachers of development studies economics sociology political science and public administration it will be useful for the administrators and development administration officials of state and central government planners policymakers and people working in ngos and corporate sector functionaries dealing with corporate social responsibilities especially those handling developmental issues and challenges

this comprehensive yet concise textbook is the first to provide a focused subject specific guide to planning practice and law giving students essential background and contextual information to planning s statutory basis the information is supported by practical and applied discussion to help students understand planning in the real world the book is written in an accessible style enabling students with little or no planning law knowledge to engage in the subject and develop the necessary level of understanding required for both professionally accredited and non accredited courses in built environment subjects the book will be of value to students on a range of built environment courses particularly urban planning architecture environmental management and property related programmes as well as law and practice orientated modules

developmental psychology from infancy to adulthood 3rd edition continues to bring together a balanced focus on australian and international research contributions in developmental psychology students and lecturers alike will find this text addresses the issues of lifespan development in a rigorous and challenging way using a thematic rather than chronological approach international and national research on graduate attributes consistently identifies critical thinking as one of the most important skills for psychology students the inclusion of critical thinking for group discussion at the end of each chapter is designed to encourage students in the development of this key skill these questions help students develop the ability to engage in discussions on truth and validity and evaluate the relative importance of ideas and data students learn by doing and this is encouraged through interactive features such as stop and review research focus boxes and practical exercises which engage them in group discussion and challenge them to delve into complex

and cross domain analysis of lifespan development concept maps at the start of each chapter provide students with a visual snapshot of the chapter content

a comprehensive study of human development from conception to adulthood this book explores the foundations of modern developmental thought incorporating international research set within a cultural and historical context

the book is well written and the theorists and their respective work are well presented and clearly explained as a text dealing with the historical overview of major theorists and their work in human development over the last century or so it is extremely strong and could be widely used in a variety of both undergraduate and graduate courses ann c diver stamnes humboldt state university in general i found the websites and references listed at the end of each chapter to be very interesting and useful for taking students beyond what is in the text jane leedingham university of ottawa a fine choice for a classic theories course and i believe that the level of presentation would be appropriate for advanced undergraduate or graduate students the up to date web sites at the end of each section are a definite plus the choice of sites is excellent cosby steele rogers virginia tech an introduction to theories of human development examines the development process looking at the series of changes that occur as a result of an interaction between biological and environmental factors why might our behavior as an adult be so different from when we were infants why and how does one stage of development follow the next are the changes that we experience abrupt in nature or smooth and predictable author neil j salkind reflects on such critical questions to help readers understand what happens along the way as one develops from infancy through later life this book provides a comprehensive view of the primary theoretical models of human development including those from the biological psychoanalytic behavioral and cognitive developmental perspectives along with a brief discussion of a historical background for each of these approaches an introduction to theories of human development examines the application of these theories to various aspects of human development such as the effectiveness of early intervention individual differences adolescence and sociobiology features of this text a final integrative chapter compares the various theories presented in the book using murry sidman s model of six criteria for judging a theory to help develop students skills for critically assessing theory classic approaches to understanding human behavior across the lifespan are also examined pedagogical features such as chapter opening quotes boxed highlights key terms a glossary and websites for further reading enhance student understanding of everyday human behavior an introduction to theories of human development is an accessible text for advanced undergraduate students in the social and behavioral sciences including such fields as psychology education human services nursing sociology social welfare and human development and family studies

new ideas new models of communications and newer perspectives through which communication has been studied applied or practiced have evolved and changed overtime but they all exist in juxtaposition so as to present an integrated scenario of communications per se in 2000 decades in the book seven salient perspectives are presented all intertwined as a communication perspective a few communication scenarios are highlighted to address the

contextual significance of the seven perspectives we foresee that the seven perspectives from which we have analyzed communications per se may undergo several changes the changes may occur when particular perspective s scope is widened the change may occur due to changes in modalities of communications both people oriented and technology oriented new communication technologies may come up along with this newer needs and demands may turn up social attitudes and values may also change in 2000 decades the communication scholars teachers and trainers researchers practitioners professionals and educators look forward to an integrated communication scenario for people society and governance the book is unique in presenting such perspectives to all those who deal in diverse areas of communications and focus on the critical issues of development culture globalization and information technology etc in different world societies presentation of communication from seven diverse perspectives its associated models and the communication strategies in the book are the product of authors four decades of association with communication discipline in theory and practice and publishing widely the same in the areas of development culture and information technology the author s communication researches in diverse communication areas from diverse perspectives and in different geo areas have provided depth in presenting the evolutionary view of communication in cohesive and understandable pattern
